## Summary

Value-Driven finance professional specializing in financial modelling, business modelling and valuations of equities and complex securities adhering to statutory requirements and accounting standards. Managed valuation projects for large PE and VC clients.

## Professional Experience

### Team Lead-Private Equity Valuation | Cognizant Technology Solutions | Hyderabad/Gurugram

- Worked on monthly Marked to Market models for funds held by Private equity clients with a focus on post-model analysis i.e. comparative analysis and pitch deck.
- Swapped knowledge between Marked to Market and asset evaluation team by having monthly sessions led by 1 or 2 associates teaching the other team of their latest learning.

### Specialist, Consulting | S&P Global | Gurugram

- Delivered 500+ business valuation reports of privately held companies as a part of quarterly projects for the largest Venture Capitalist and Private Equity clients. The reports were delivered ahead of schedule, consecutively for eight quarters.
- Enhanced the complex financial models used in Black-Scholes Option Pricing Method and Discounted Cash Flow Methods to increase the efficiency and reduce time during the next cycle by 25%.
- Managed and delivered business valuation reports for financial reporting, tax, and regulatory compliance including post mergers and acquisitions, restructuring and portfolio rebalancing, and management planning purposes.
- Contributed to the design and enhancement of the financial models used to perform valuations of privately held companies for performing valuations of early-to-late stage privately funded companies with complex capital structures.
- Supported clients in audit support queries related to valuation reports that were delivered.

### Equity Analyst | Finshore Management Services Limited | Kolkata

- Built financial models from scratch which were used to value companies with Private equity and multiple security classes like common stock, stock options, and preference shares. These securities may be convertible or non-convertible in nature and are required for SEBI and income tax reporting, as per IFRS and IndAS standards.
- Worked in the team to discuss and decide the relevant valuation methods like Discounted Free Cash Flow, Transactions Method, NAV Method etc. to be used in the valuation.
- Took client calls to understand the valuation reports requirements and delivered the valuation reports as confirmed by the merchant banker.

### Accounting Assistant | Synergy Filtration Pvt. Ltd. | New Delhi

- Assisted in the preparation of monthly financial statements and reports for internal stakeholders and external auditors.
