Summary

Technology consulting and cloud integration professional with 7+ years of experience, leading global teams across aerospace, life sciences and FMCG. Delivered measurable impact through enterprise integration, platform optimization, reusable delivery assets and high-risk migration programs. Bridges business needs, stakeholder expectations and technology execution to deliver scalable, resilient and client-centric solutions.

Professional Experience

Senior Associate | PwC | Bengaluru

July 24 - April 26

- Led a 12-member global integration team for a large aerospace separation program, driving the migration of 100+ API proxy services and 40+ integrations from a shared automation-and-aerospace system landscape to Google Cloud API Management.
- Enabled the client to operate independently during separation by driving the movement of critical business services away from the parent company's technology landscape, saving close to USD 1.2 million per year as part of the Transfer Service Agreement
- Built and scaled a structured integration delivery team by defining ownership across development, DevOps, testing, and support workstreams, improving execution clarity and delivery discipline despite complex legacy and infrastructure dependencies.
- Prevented an estimated USD 200-250K in downstream rework and remediation costs by resolving complex, undocumented integration data-structure issues and enabling a smoother Salesforce migration.
- Reduced coordination delays across US, Europe and India teams by approximately 25-30% by resolving delivery conflicts through clear ownership, structured calls, disciplined follow-ups and escalation routines.

Packaged App Development Senior Analyst | Accenture | Bengaluru

April 21 – July 24

- Orchestrated the integration track for patient-services platforms supporting multiple high-value therapies for a global life-sciences client, enabling patient access, financial assistance, fulfilment, logistics and downstream operational workflows.
- Spearheaded the evaluation, proof-of-concept, and implementation of a lightweight integration platform (Boomi) over a heavier alternative architecture, reducing annual licensing cost by approximately USD 65K while meeting scalability and delivery requirements.
- Positioned Accenture for an estimated USD 3M revenue opportunity and contract expansion by developing the integration strategy and solution design for an additional patient-services program.

Senior Systems Engineer | Infosys Limited | Bengaluru

May 18 – April 21

- Engineered multiple integration interfaces for a global FMCG client, improving supply-chain visibility, partner communication and business-data availability while supporting an estimated USD 2-3M in annual business value.
- Managed MFT application delivery, managing a small development team and coordinating development, testing, issue resolution and delivery activities.
- Improved FMCG integration performance by approximately 12-15% by standardizing file-transfer logic, reusable mappings, validation steps and exception-handling processes across partner requirements.

Education

B.Tech in Computer Science & Engineering - G.L. Bajaj Institute of Technology & Management | Gr Noida

Accomplishments and Awards

- Earned "Above and Beyond" ratings across 90%+ of PwC performance snapshot hours, placing among the top 5% of high-performing resources at PwC.
- Won Accenture's prestigious ACE Awards in consecutive quarters of FY23 Skills Star Award, Q2 and Growth Catalyst Award, Q3 for delivering strong business impact and client value.
- Received PwC "Think and Act Differently" recognition for out-of-the-box solution approaches and clear communication.
- Received Employee of the Month and EAIS Star Performer recognition at Infosys for strong performance and ownership.

License & Certifications

- AWS Certified Cloud Practitioner | MuleSoft 4.X Hands-on Projects Certificate, Udemy
- Google Cloud Apigee API Platform Specialization Certificate, Coursera
- Professional Integration Developer Certification, Boomi | Associate Integration Developer Certification, Boomi

Co/Extra-curricular

- Winner, EAIS Cricket League, Infosys Enterprise Application Services.
