Summary

Strategy and finance professional with 5+ years of experience across venture due diligence, financial modeling and valuation, fractional CFO mandates, and founder and board advisory, spanning healthcare, SaaS, retail, and edtech. Proven record of translating ambiguous information into recommendations boards, investors, and founders can act on. Strong financial acumen and stakeholder management, with experience aligning people across competing priorities toward one difficult decision.

Professional Experience

Associate Partner | Sarthena Advisors LLP | Bangalore

Figures converted at ₹80/\$.

- Evaluated expansion plan of a FMCG startup for a VC's \$12.5M investment decision; analyzed unit economics, cost structures & regional scalability across a 252-store rollout through a 3-week turnaround.
- Restructured a \$12.5M deal to a phased, pilot led rollout (125 stores vs. 252), cutting funding ask to \$6M; shielding the fund from capital exposure & drafted data-backed term sheet inputs on tranches & capital allocation rules.
- Led business & financial due diligence of \$1.6M healthcare target for an impact VC fund; conducted field visits across 8+ competitors, alongside the founders & investors to validate market realities steering it to milestone-based funding.
- Advised global funder on investment readiness of a healthcare enterprise; deconstructed enterprise legacy operations to evaluate 3 business units & present recommendations to the Asia Head, delivering 15-20% overhead savings.
- Evaluated 5+ (Seed to Series A) investment opportunities; formulated investment theses, memos, & risk mitigation frameworks; on capital deployment with structured Invest / Pass / Conditional recommendations.
- Built foundational strategy & revenue model for a pre-revenue digital health venture covering budgets, pricing and unit economics which enabled the venture to secure a \$3.75M government grant.
- Partnered with a startup to diagnose funnel friction, driving a 19% increase in MRR.
- Ran a profitability diagnostic across 30-40 projects for the founders of an impact consulting firm; drove the exit of accounts earning 10-12% margins and reallocated capacity toward streams yielding ~30%.
- Uncovered 15% systemic effort overruns through utilization audits & corrected the structural contract mispricing.
- Built 10+ valuation models using DCF, comparables & VC method for companies valued at \$6-19M across SaaS, retail, healthcare and edtech; models anchored institutional fundraising rounds.
- Engineered dynamic cap table simulators to track founder/investor dilution across successive funding rounds

Financial Planning and Analysis | Sarthena Advisors LLP | Bangalore

- Audited 15+ core metrics (CAC, LTV, Margins, payback) against global benchmarks to identify structural gaps.
- Served as fractional CFO to the leadership of a \$16M donor funded nonprofit; built AOP, MIS, ensured institutional donor compliance, reviewed P&Ls & fund allocation across multi-disciplinary programs with the Director & Board.
- Owned FP&A function of a \$1.4M revenue B2B SaaS growth startup; institutionalized a dashboard integrating MRR, sales pipeline, receivables & KPIs across 60+ clients, serving as Board's primary tool for strategic trade-offs & decisions.
- Extended runway by 5 months during a liquidity crunch by strategically renegotiating vendor payment schedules.
- Deployed a treasury strategy for a nonprofit by mapping inflows against program timelines; deployed surplus to generate \$40-75K in incremental annual returns to fund core operations.
- Engineered a factor driven cost framework across programs of ~\$1.6M/yr, compressing B vs A variance by 5%.
- Built a SKU level classification & data standardization for \$1M ARR portfolio, accelerating monthly close by 5 days.
- Merged 5 fragmented trackers into one executive dashboard & drove leadership review preparation time from 20 to 10 days.
- Designed 5+ ESOP valuation frameworks using Black-Scholes & FMV model; largest covered a 500+ employee workforce.
