Summary

Strategic leader with 9+ years of experience in analytics, product management and consulting across global markets. Experienced in leading high-impact projects, scaling SaaS products, and delivering data-driven solutions across industries. Skilled in stakeholder management, and cross-functional collaboration.

Professional Experience

Engagement Manager | NeenOpal Inc | Bangalore

- Led 10+ analytics projects in healthcare, banking, e-commerce, telematics and media across global markets including USA, Europe, Sri Lanka, and India, delivering ~\$2M in business impact
- Headed a global project for a leading pharmaceutical client, collaborated with their Enterprise Analytics team (of 10+ members) to deliver dashboard solutions with live visibility into 15+ KPIs across sales and marketing functions
- Spearheaded industrial analytics transformation for a heavy machinery OEM, leveraging IoT and AWS quick sight for 7000+ active devices to get immediate insights on operational metrics reducing reporting TAT from 2 weeks to under 24 hours.
- Led compliance initiatives for ISO 27001 and SOC2, ensuring secure practices across the firm's cloud-hosted infrastructure, supporting enterprise-grade data governance and business continuity.

Product Manager | Mokkup.ai (NeenOpal Inc) | Bangalore

- Headed a cross-functional team of 15+ members across product development, design, UI/UX, content and marketing teams to scale a SaaS product from its MVP stage to 30,000+ users (400+ paid) in 12 months.
- Conducted 50+ user research interviews across countries to refine product roadmap and feature prioritization.
- Pitched the product at global accelerators including Google Accelerator, Y Combinator, and Berkeley Skydeck, securing strategic exposure and access to exclusive startup mentorship networks.
- Earned accolades such as "Best Ease of Use" and "Best Value" on Capterra and "Product of the Day" on Product Hunt.
- Spearheaded GTM and customer acquisition strategies that positioned the product for rapid growth across 20+ countries.

Senior Associate | NeenOpal Inc | Bangalore

- Built scalable BI solutions across diverse industries while driving impact in a fast-paced startup environment.
- Generated 5+ qualified leads in 3 months by driving business development through targeted go-to-market strategies, SEO optimization, and thought leadership content. Notable inbound leads included Facebook among others.
- Mentored a team of 5 members in developing plug-and-play google analytics dashboards aligned with evolving industry trends thus reducing dashboard turnaround time by 40%.
- Oversaw the automation of ETL workflows using S3, Lambda, Glue, and Redshift, ensuring high availability of cleaned, transformed data for dashboarding.
- Enabled a 30% boost in self-service analytics adoption by training end-users and delivering intuitive dashboard documentation.

Senior Consultant | Arcadis Design and Consultancy | Bangalore

- Led operational transport planning projects across the UK and Europe, focusing on congestion mitigation, route optimization, and smart mobility interventions, directly contributing to multi-million-pound infrastructure investments.
- Executed traffic modelling and scenario simulations to inform policy decisions and urban mobility strategies.
- Seconded to the London office; worked closely with Highways England and Transport for London in optimizing signalized intersections, and lane configurations to improve urban traffic flow and safety.
- Played a key role in design and modelling of Lower Thames Crossing project (₹9 billion+ initiative), projected to reduce congestion by 20% and save 30 mins/trip for 80K daily users.
