Summary

Supply chain and analytics consultant with experience delivering strategic sourcing, spend analytics, and taxonomy transformation initiatives across the Oil & Gas, Telecom, CPG, and Automotive sectors in Deloitte USI and TCS. Built and led a 100+ member Energy & Chemicals Community of Practice within Deloitte.

Professional Experience

Senior Consultant, Supply Chain & Network Operations | Deloitte Consulting USI | Kolkata

- Led strategic sourcing assessment for a direct spend category worth \$180M annual spend for a major US Oil & Gas client, uncovering \$11M (6% of category spend) in potential cost savings
- Built a spend analytics dashboard giving visibility into \$12B of non-hydrocarbon spend across business units, suppliers, and categories; unlocked ~\$20M in potential savings opportunities
- Drove procurement compliance and inventory optimization for a US Oil & Gas client - achieved 80% reduction in long-pending purchase orders and delivered \$5M in cost savings over 8 months across 80% of client sites
- Collaborated with multiple teams and stakeholders to build and deliver 5 supply chain analytics dashboards by spearheading the supply chain team, which provided end-to-end visibility of 100+ KPIs to the client
- Built and led a 100+ member Energy & Chemicals Smart Operations Community of Practice within Deloitte USI from scratch in under 3 months, making 30 members project-ready and reducing dependence on US-based staffing

Consultant, Supply Chain & Network Operations | Deloitte Consulting USI | Kolkata

- Designed and executed rapid smart manufacturing assessments for two clients, identifying bottlenecks and recommending future-state solutions; co-developed an Excel-based Business Value Estimator tool (OEE & profitability modelling) that was adopted into Deloitte's standard Industry 4.0 offering
- Redesigned spend taxonomies for a major US Oil & Gas giant as well as a major CPG & Industrials company to make them mutually exclusive, market facing and industry standard, identifying multimillion dollar savings opportunities in both cases
- Conducted end-to-end supply chain assessments for a US based commercial vehicles giant and reduced their potential average Order-to-Delivery lead time from more than a year to less than 12 months
- Designed an Inventory Rightsizing dashboard for a US automotive client, identifying \$40M in potential understocking risk

IT Analyst | Tata Consultancy Services | Hyderabad

- Led a 4-member offshore Power BI development team for British Telecom, delivering 12+ interactive dashboards with 100% on-time deployment across the engagement
- Designed and deployed 2 dashboards improving KPI visibility for British Telecom's senior leadership
- Coordinated with the client to gather requirements, translate them into dashboard specifications, and deploy to their server
- Created a standardised requirements-gathering template that reduced the requirements process time by 30%
- Conducted regular knowledge-sharing sessions for the broader team and contributed to RFP creation
- Received 3 promotions in 5 years

Education

Bachelor of Technology – Maulana Abul Kalam Azad University of Technology, Kolkata | India

Accomplishments and Awards

- **Elected Secretary, Profile Committee (PGPX), IIM Ahmedabad** - led 15 members auditing 160 student profiles to ensure placement-readiness for the cohort
- **Received 6 awards at Deloitte:** 3 Applause Awards and 3 Spot Awards across strategic sourcing, spend analytics, smart manufacturing, and automotive supply chain engagements
- **Received the Special Initiative Award (TCS, 2022)** for delivering a critical Power BI dashboard within a tough deadline
