विकासनियोगाहिकाः

Summary

Technology consultant with 6+ years of experience helping Fortune 500 clients navigate high-stakes digital and data transformations. Proven track record of aligning executive stakeholders and turning complex technical challenges into clear, practical roadmaps that deliver measurable business results.

Professional Experience

Data Eng, Mgmt & Governance Sr Analyst | Accenture | Navi Mumbai

June 2024 - March 2026

- Orchestrated iterative improvement of product roadmap and KPI framework for Microsoft's HRMS dashboard by convening cross-functional focus groups, surfacing workforce challenges, and translating stakeholder requirements into product features.
- Scaled to 8 divisions, establishing a single source of truth for HR Business Partners and saving \$260K+ in annual manual effort.
- Steered adoption through workshops and change-management initiatives, enabling 200+ users to embed KPI insights into data-driven decision-making.
- Drove data-driven feature prioritization by analysing recurring incidents, estimating effort, and securing sign-offs on 15+ deliverables, accelerating resolution of critical pain points.
- Modernized access management process, eliminating manual efforts and saving 250+ hours annually while reducing compliance risk and standardizing access governance.
- Stepped into project leadership amid organizational transition and turned contract termination risk into a \$1M+ two-year renewal.

Data Eng, Mgmt & Governance Analyst | Accenture | Noida

March 2022 - May 2024

- Managed end-to-end delivery of Microsoft's HRMS Pilot dashboard by optimizing the underlying codebase to drive a 25% performance improvement and generate ~\$21.6K in annual savings.
- Designed automated release pipelines that cut deployment time from 90 minutes to under 10 minutes, elevating Accenture's deployment standards across projects.
- Re-engineered core processes and developed reusable frameworks, cutting implementation cycles by 15% and increasing client satisfaction to 95%+.
- Led the initiative to design validation and exception-handling modules, reducing reporting errors by 20% and improving the reliability of business-critical reporting.
- Turned around a stalled database migration by designing a phased implementation plan that eliminated full rollbacks, delivering the project 33% ahead of schedule and saving over \$8K.

Systems Engineer | Tata Consultancy Services | Noida

June 2019 - March 2022

- Built cloud data pipelines supporting \$25M+ in procurement spend across Walgreens' vendor analytics platform.
- Partnered with product and business teams to deliver supply-chain analytics solutions with a 90% on-time sprint delivery rate.
- Migrated legacy ETL workflows from Talend to Azure Databricks with zero business disruption.
- Created system documentation and knowledge repositories that reduced new-hire onboarding time by 50%.

Education

Bachelor of Technology (Information Technology) – Vellore Institute of Technology | Vellore, Tamil Nadu, India

Accomplishments and Awards

- Sparkling Star, Accenture, Jan 2025 – Awarded for delivering high-quality client outcomes with swift turnaround times across fast-paced project environments.
