Summary

Technology and product professional with 7+ years' experience in leading SAP reporting, analytics, and ERP solutioning for global FMCG and Oil & Gas clients. Skilled in cross-functional team leadership, automation, stakeholder management, and data-driven decision-making.

Professional Experience

Application Development Team Lead | Accenture | Bengaluru, India

Dec 2022 – Apr 2026

- Spearheaded reporting, analytics, and ERP solutions for a global FMCG client (~\$60+ billion revenue), managing cross-functional teams to deliver business-critical solutions.
- Drove the automation of Month-End Closure reporting via SAP HANA and Azure Data Factory, cutting manual effort ~70% and improving reporting efficiency and customer satisfaction.
- Diagnosed inefficiencies across reporting and support processes and led automation, standardisation, and SOP initiatives, lifting productivity and enabling ~40% workforce optimisation while sustaining 99.9% SLA compliance.
- Built and led a 5-member development team across planning, resourcing, hiring, onboarding, mentoring, and performance management, ensuring timely execution of strategic initiatives.
- Partnered with Product, Finance, and Digital Transformation leads to translate business requirements into analytics products; defined project-wide KPIs, delivery metrics, and governance frameworks.

Application Development Senior Analyst | Accenture | Bengaluru, India

Dec 2021 – Nov 2022

- Led Application Maintenance and Support teams to 99.9% SLA compliance across incidents, service requests, problem tickets, and production support via ServiceNow dashboards enabling data-driven decisions for stakeholders.
- Supported the client's digital transformation by migrating SAP landscapes from on-premise infrastructure to Azure and contributing to the SAP S/4HANA journey, modernizing legacy ERP processes and reporting.
- Bridged business users, SAP consultants, analytics teams, and developers across Finance, Supply Chain, Commercial, Sales, and Operations to support enterprise reporting, business planning, and performance management.

Application Development Analyst | Accenture | Bengaluru, India

Jun 2020 – Nov 2021

- Designed and delivered enterprise-scale reporting and analytics solutions using SAP Native HANA, Azure Data Factory, and Power BI, enabling data-driven decisions for business stakeholders.
- Rebuilt the operations and controls reporting function from scratch during a vendor transition, by planning KT and feedback sessions, implementing checks for zero defects and timely delivery of Change Requests for HANA models thereby preserving service quality with zero SLA breach.

Application Development Associate | Accenture | Bengaluru, India

Aug 2018 – May 2020

- Implemented SAP Native HANA solutions for a large Oil & Gas company (~\$3.5+ billion revenue), optimizing views improving execution times and building future-ready test scripts.
- Migrated a legacy Teradata reporting solution to SAP BI and instituted peer review into the development cycle, reducing defects and lowering testing effort.

Education

B.Tech – Mechanical Engineering, Manipal Institute of Technology, MAHE | Manipal, India

2014 – 2018

Accomplishments and Awards

- Promoted three times within a 7-year tenure – from Associate to Team Lead – recognized for consistent, high-impact performance.
- Won Accenture's ACE Award for outstanding contribution to client business outcomes.
- Won Unilever's Comex Quarterly Star Award for delivering business-critical projects ahead of schedule.
